

II RESPONSES TO COMMENTS ON THE DRAFT EIR

Public input was solicited at several points during the creation of the 2020 LRDP and the Draft EIR. UC Berkeley held two informational “open house” events in March 2003, at which University staff presented an overview of preliminary analyses and findings on the plan, and then invited questions and comments from the audience. Shortly after the August 29, 2003 publication of the 2020 LRDP Draft EIR Notice of Preparation, UC Berkeley held a scoping meeting on September 22, 2003 to encourage public input on the scope of the EIR.

For the Draft EIR itself, UC Berkeley not only established the public comment period at 61 days rather than the required 45 days, but then extended it again to 65 days at the request of the City of Berkeley. During the comment period, UC Berkeley held two public hearings on the Draft EIR, on May 5 and May 11, 2004, at which oral as well as written comments were taken.

Sections 11.2A thru 11.2T present each of the 311 comment letters received on the Draft EIR, transcripts of comments submitted in oral testimony at the two public hearings, and the University’s response to each substantive environmental comment. (In some instances, a comment expresses opinion or does not relate to an environmental issue; the response may then be merely “comment noted.”) Section 11.2A includes written comments from federal and state agencies; section 11.2B includes written comments from regional and local agencies; section 11.2C includes written comments from organizations and individuals; and section 11.2T includes transcripts of oral comments by 53 speakers at two public hearings. For ease of reference, comments are listed in the order received in table 11-1, and alphabetically (by first name) in table 11-2.
