FINAL ENVIRONMENTAL IMPACT REPORT UC BERKELEY 2020 LONG RANGE DEVELOPMENT PLAN & CHANG-LIN TIEN CENTER FOR EAST ASIAN STUDIES

The Final Environmental Impact Report includes two new volumes:

- Volumes 3A and 3B contain the public comments received on the Draft EIR, and describe the changes made in response. Volume 3A includes the Final 2020 LRDP, revised to incorporate those changes.

The changes described in Volumes 3A and 3B refer back to the content of Volumes 1 and 2:

- Volume 1 is the Draft Environmental Impact Report, published for public comment on April 15 2004. Volume 1 includes the Draft 2020 LRDP.
- Volume 2, also published on April 15 2004, contains several technical appendices which support the analyses in the Draft EIR.

The full contents of each volume are listed at the end of this Reader's Guide.

GUIDE FOR RETURNING READERS

We suggest you begin at Volume 3A, Chapter 9. In Section 9.1 you'll see the changes made to the 2020 LRDP and Draft EIR in response to your review and comments. You'll also see a revised summary of the environmental analysis in Section 9.2, and the revised 2020 LRDP in Section 9.3, both of which incorporate those changes.

Chapter 10 presents the Mitigation Monitoring and Reporting Program, as required by the California Environmental Quality Act.

Responses to comments on the Draft EIR appear in Chapter 11. Chapter 11 begins with two tables which index those comments, first by order received, and then by name of commentator.

The **Thematic Responses**, in Section 11.1, present comprehensive responses to eleven substantive topics repeatedly raised in comments on the draft documents, consolidated in a single, easy-to find location in the Final EIR.

The Thematic Responses are followed by responses to state and local agency comments in Sections 11.2A and 11.2B in Volume 3A, and then by responses to individual, organization, and public hearing comments in Sections 11.2C and 11.2T in Volume 3B.

GUIDE FOR NEW READERS

New readers might begin by reading the complete revised 2020 LRDP, as it appears in Chapter 9 in Volume 3A. For a description of the Chang-Lin Tien Center for East Asian Studies, please see Chapter 3 in Volume 1 of the Draft EIR.

The new reader may then either review a full summary of all identified environmental impacts and proposed mitigations, in Section 9.2, or opt for a more focused review of the changes made to the Draft 2020 LRDP and EIR in response to public comments, as described in Section 9.1. The new reader may then refer back to the detailed environmental analyses in Volume 1 of the Draft EIR for background information on topics of interest.
